Pre-arranged Absence Form

Students Name: [redacted] will be absent from school on the following dates: from [redacted] to return on [redacted].  
Although we discourage absences, we realize certain situations make such event necessary. For each prearranged absence, it is the student's responsibility to contact all of his/her teachers for the assigned work during the specified dates. Although some work can be done away from school, much of what goes on during class time cannot be made up. Therefore, the loss of school time does place the absent student at a disadvantage in the final evaluation.
